# Rentrax Dashboard

Rentrax is a comprehensive B2B rental management system offering end-to-end solutions for businesses to streamline rental operations.

The dashboard features a dark sidebar with navigation options: Dashboard, Orders, Financial Reports, Inventory, Exports (with a red notification badge '2'), Message Center, Customers, Support Tools, Tours, and Configuration. The main content area is light gray and includes a welcome message for 'John Brown' on Wednesday, 26 July 2024. It displays three key performance indicators (KPIs) for Rent Orders (12,204,352), Tour Reservations (21,637), and Sale Orders (7,206), each showing a 9.41% increase and +2,353 units for the current month. A 'Sales Overtime' bar chart shows monthly revenue, with a tooltip for June 2024 indicating a revenue of \$12,363. A 'Rental Category Revenue' donut chart shows the distribution of revenue across E-Bike, Tandem Bike, Mountain, and single Bike categories. Below these are sections for 'Basic Info' with links to Customers, Rent Inventory, Coupons, Categories, Tour Definitions, and Help Center. At the bottom, there are 'Category Revenue' and 'Reports' sections, with the latter including a 'Delivery Report' and 'Category Rev.' report.

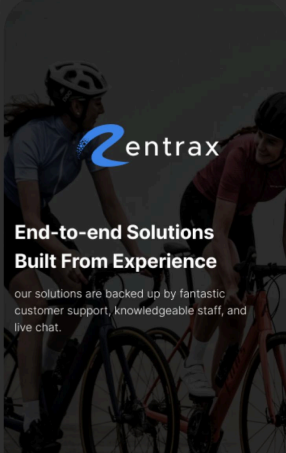

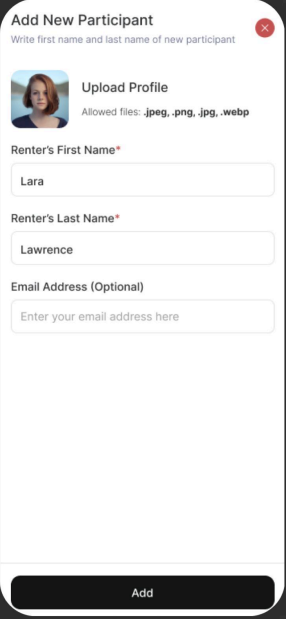

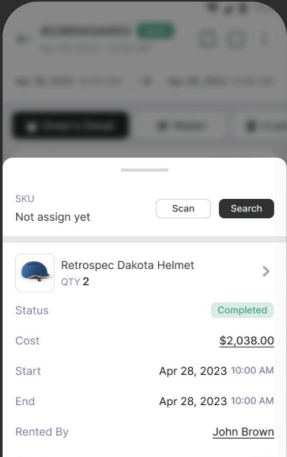

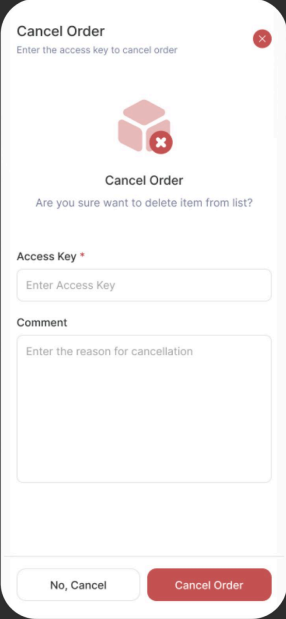

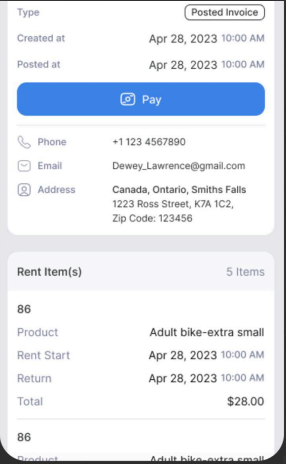

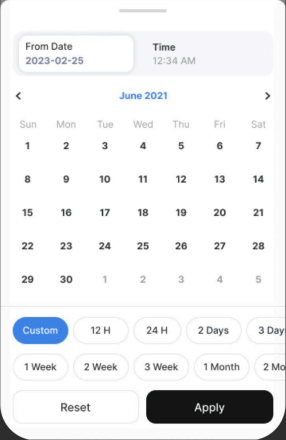

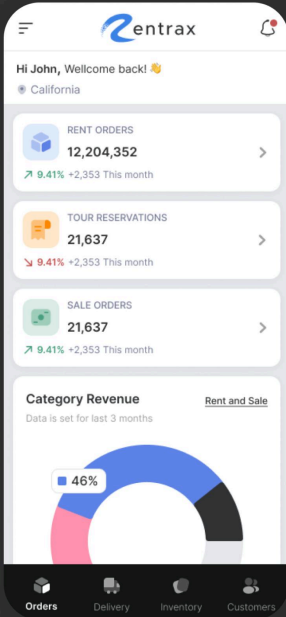

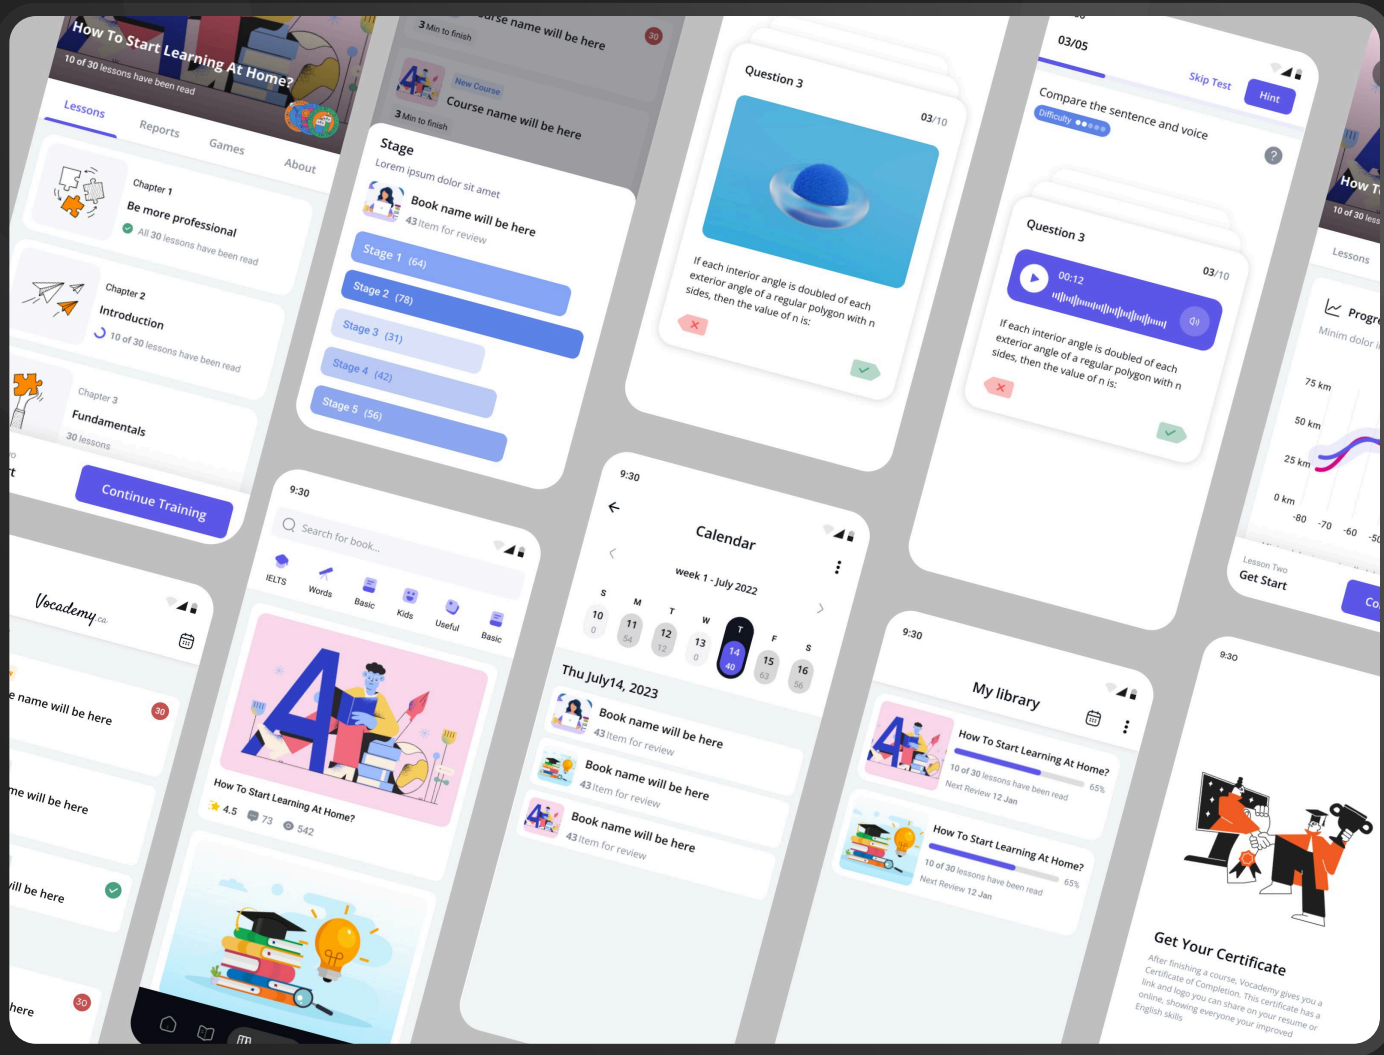

# Rentrax Panel

Rentrax is a comprehensive system for rental, sales, and Borrow services, offering various features such as online order placement, inventory management, product availability calendar, and more. It is designed to streamline the process for both service providers and customers, ensuring efficiency and ease of use.

# Rentrax Application

The Rentrax app offers most of the features available on the web panel. Additionally, it includes the capability to scan and manage products, making the experience more convenient for Staffs.

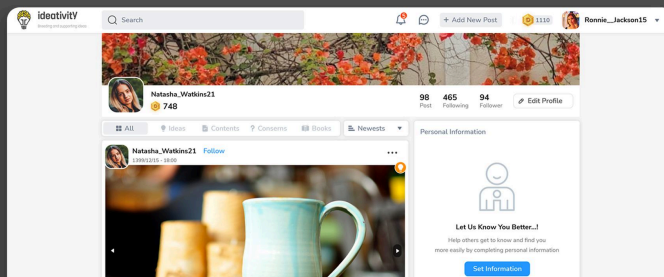

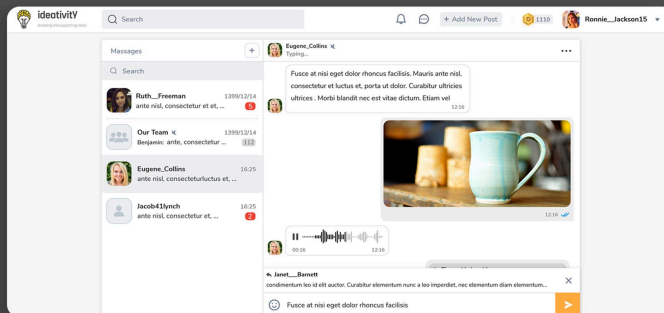

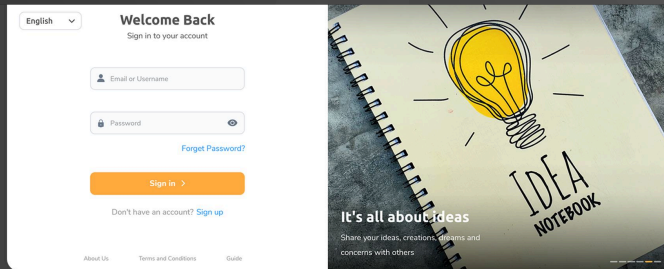

# Vocademy Application

Vocademy is a language learning app that offers a variety of lessons and games, utilizing a unique method to make learning English easier and more intelligent. The app also features a rewards system and the ability to play with friends, adding a fun and engaging element to the learning process.

# Ideativity

Social media about idea  
Website

# Hotel Reservation

This is a conceptual hotel booking website, designed to suggest the best accommodation options based on location and cost. It aims to help users find the most suitable hotels according to their preferences, ensuring both convenience and affordability.

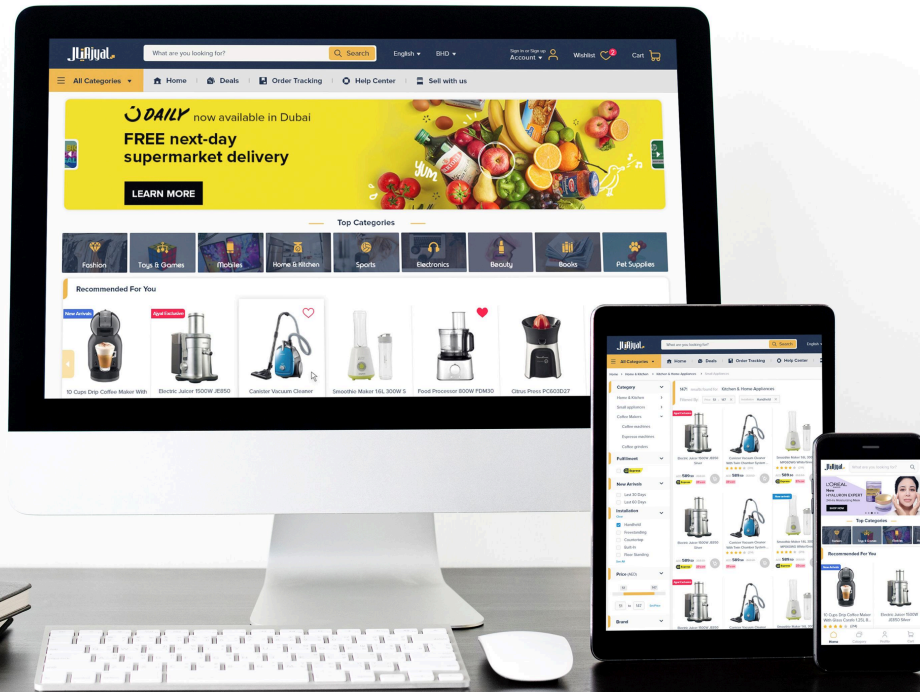

# Ajyal Application

Ajyal Application is a feature-rich mobile application designed to offer a complete and user-friendly online shopping experience, catering to all customer needs.

**Ajyal**  
Online Shopping  
Website & Responsive

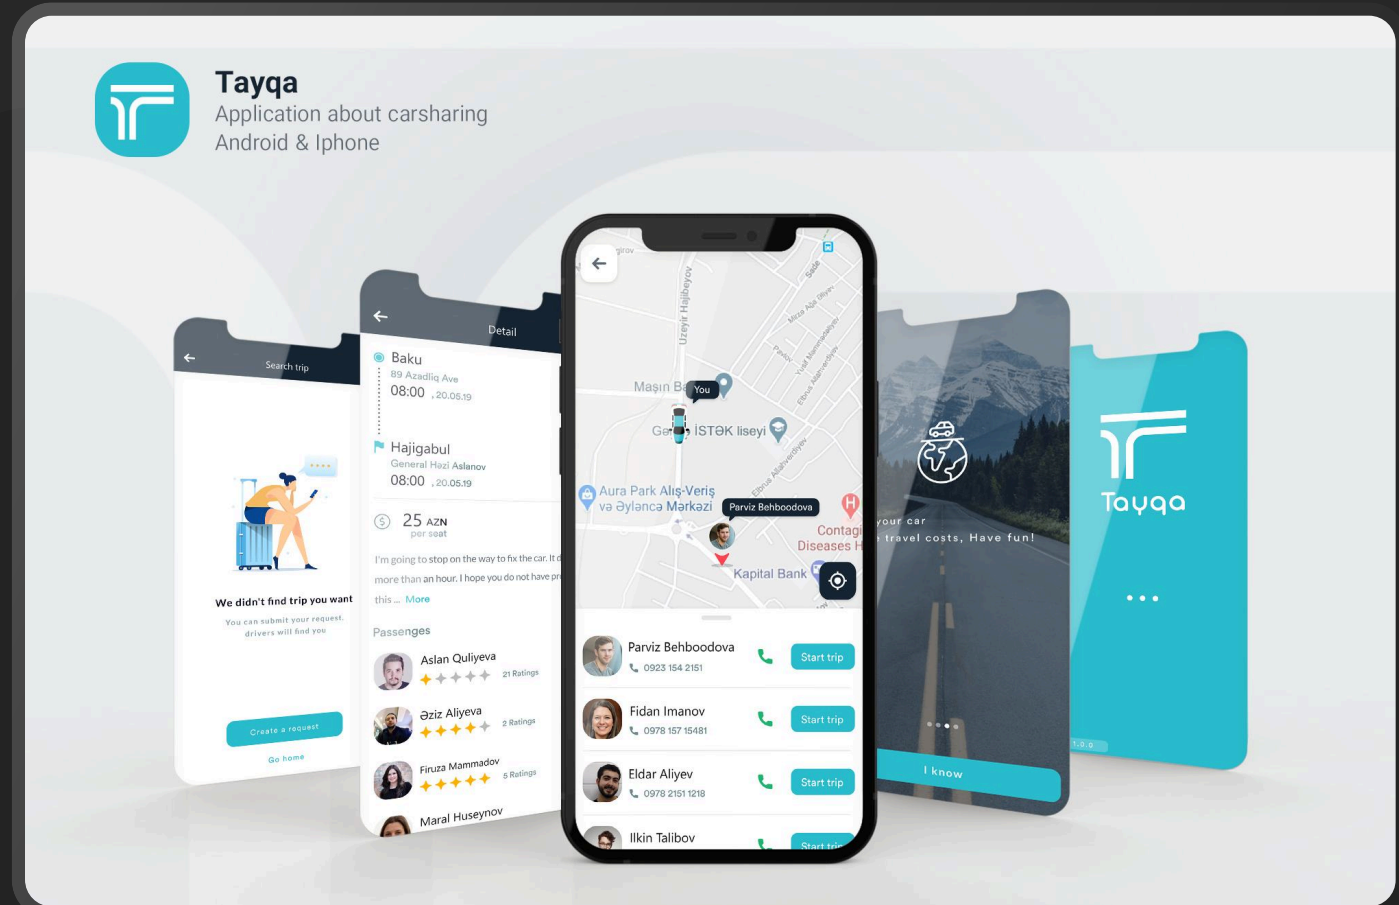

# Ajyal

Ajyal is a comprehensive e-commerce website equipped with all the essential features and functionalities needed for a seamless online shopping experience.

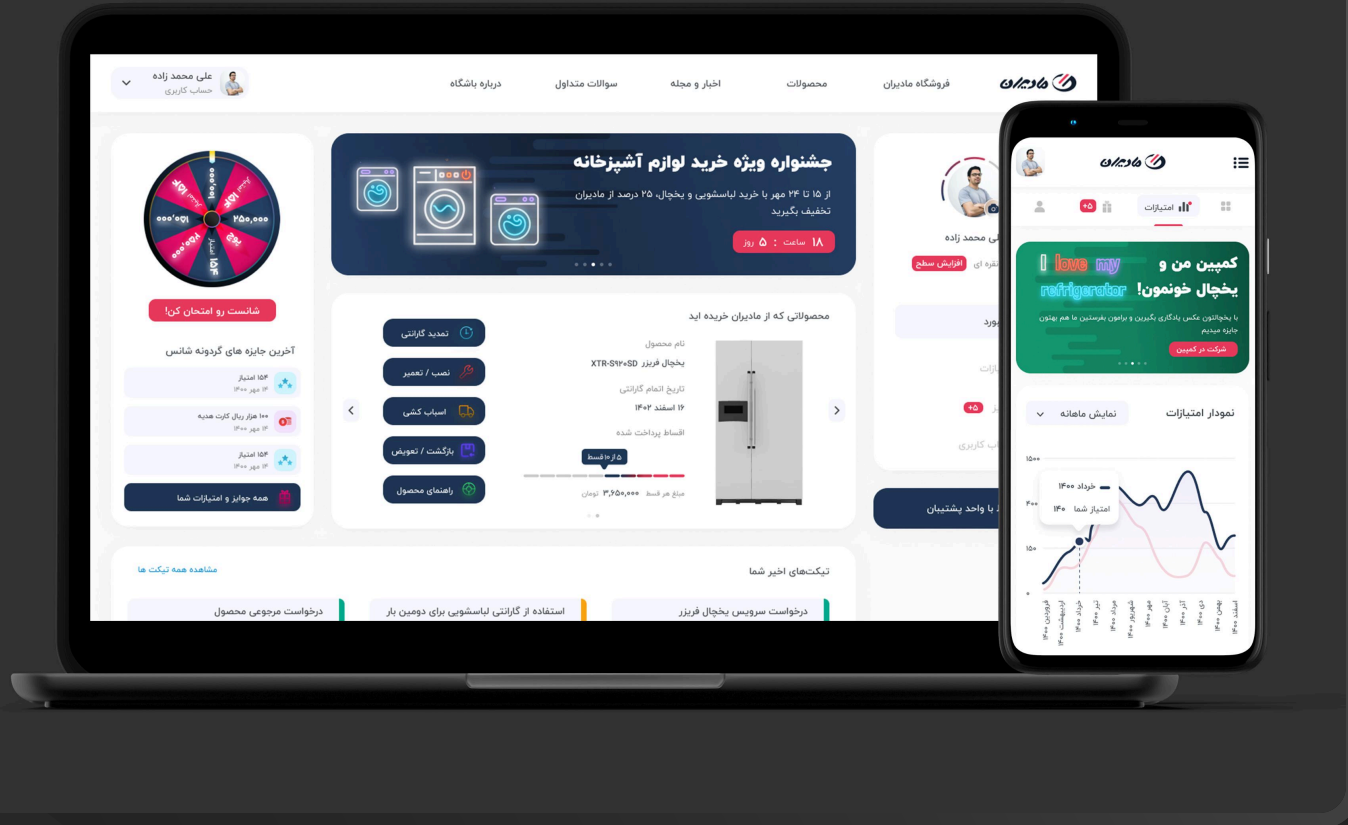

# Tayqa

Tayqa is a mobile application aimed at streamlining the travel experience for both drivers and passengers. The platform is built to provide ease of use and optimize the overall journey process for its users.

# Madiran Customer Club

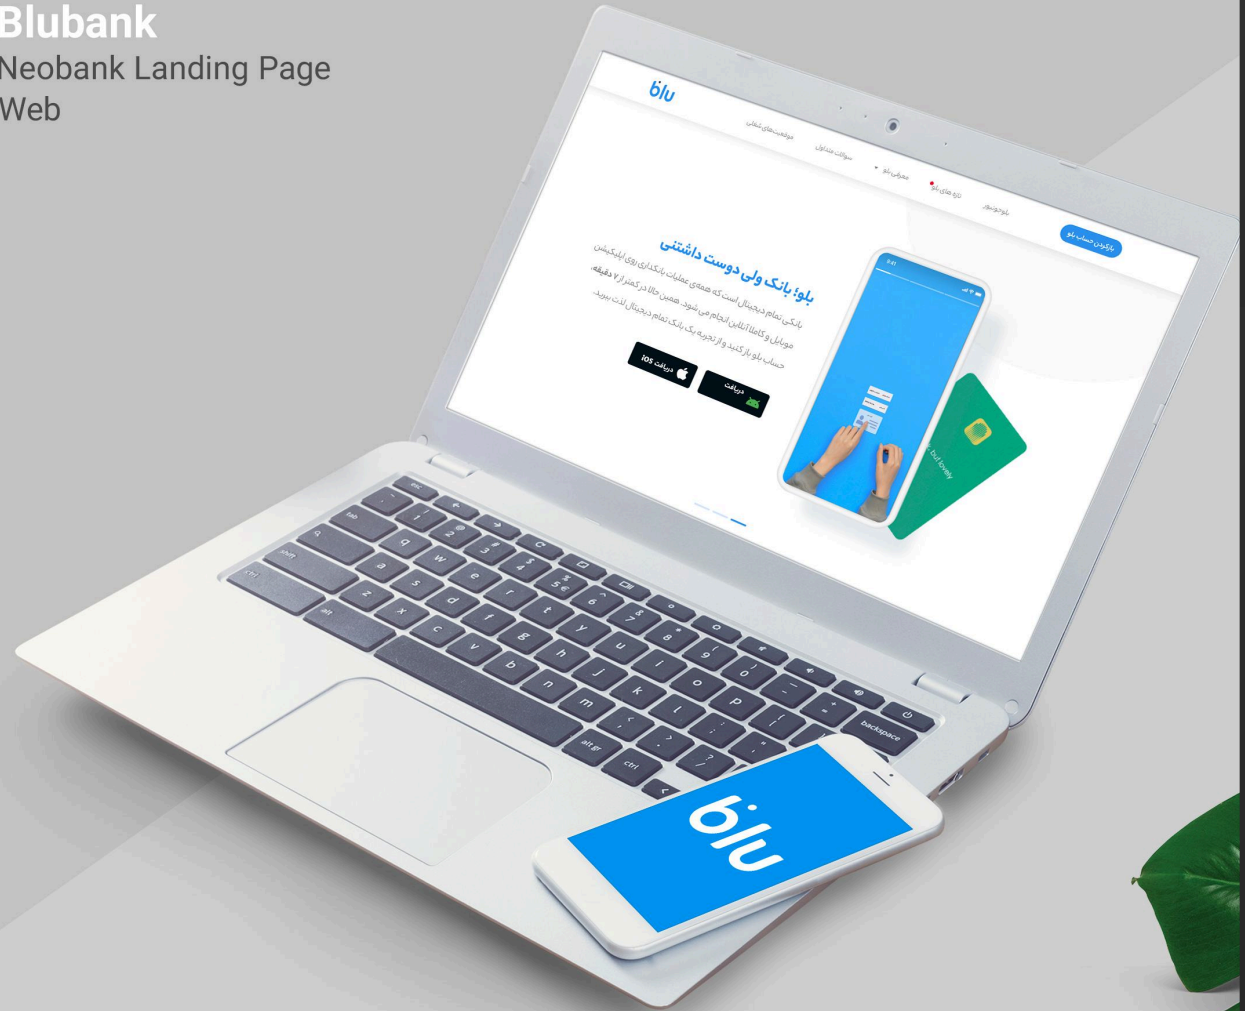

This system is designed to handle all customer-related services, including the maintenance and servicing of purchased home appliances, direct communication with support experts, and offering various rewards and incentives to enhance customer engagement.

# Blubank

BluBank is an Iranian neobank that provides innovative digital banking solutions. My primary responsibility was to redesign the landing page along with other key pages that introduce the brand and its offerings. This comprehensive project required creating designs for both desktop and responsive (mobile) versions to ensure an optimal user experience across all devices. The redesign focused on enhancing visual appeal, user engagement, and overall navigability, aligning with the brand's modern, tech-forward identity.
